## Church Scene Of Pretty Wedding

Cowgill — McDougall  
Nuptials Solemnized May 30

A very pretty wedding was solemnized in the St. Aldhelms Church in Vulcan at 4 P.M. on Tuesday May, the 30th, when Hazel Florence, elder daughter of Mr. and Mrs. J. D. McDougall became the bride of Mr. John Stephen Noel Cowgill son of the late Rev. Harry Cowgill of Shire Oaks Nottingham, England.

The Rev. Canon T. B. Winter of Vulcan performed the ceremony. The bride entering the church with her father looked lovely in a golden tan swagger suit. Her hat was of white Bagheere with veil and flowers, her accessories were white. A corsage of Talisman roses completed her ensemble.

The bride and groom were unattended. The witnesses being Mr. and Mrs. T. Tredaway of Crossfield.

Following the ceremony a wedding luncheon was held at the home of the bride's parents where the bride's table centred with a three tier wedding cake was placed under a canopy of pink and white streamers and lighted with pink candles. The table was also decorated with vases of beautiful tulips grown by Mr. A. L. Miller of Champion. Only relatives and immediate friends were present.

Out of town guests were Mr. and Mrs. T. Tredaway, Miss Winifred and Miss Edna Tredaway of Crossfield.

## Medical Officer Pleased With Health Of Local School Pupils

Praises Quality Teeth  
Structure Advice On  
Corrections Should Be  
Followed

One of the most encouraging reports was received by the Chronicle last week from the medical Health Officer who made a complete check of all the schools in the district.

In Champion schools the standard was exceptionally high, the medical officer told the Chronicle. One of the most remarkable facts was the condition of the teeth. The structure of the teeth of practically all the pupils was such that few if any cavities have developed. The doctor examining has had considerable experience in various districts and stated that Champion was the highest standard he examined for many a year.

In certain cases recommendations were made by the doctor, this includes removal of tonsils, attention to the eyes and other important corrections. It is urged that the parents carry out these recommendations. The examination of the pupils is of little avail if the troubles found are not corrected. In case of tonsils and eyes the pupils may be able to carry on but with definite injury to their future life.

## NAME FRED CLEVELAND ACTING MAYOR

Mr. and Mrs. W. Soderquist and young son were Sunday visitors at the home of Mr. and Mrs. Reiter (nee Thelma Middleton) of Iron Springs.

A good number attended the tea sponsored by the Ladies' Hospital Auxiliary. The committee in charge cleared \$36. Tables were effectively decorated with blue and white. Bake sale was well patronized. It was a delightful social afternoon and evening and credit is due the ladies for their management.

Tom Middleton took his three daughters Mrs. Roy Burns and little daughter, Edna of Champion and Mary went to Iron Springs on Sunday to celebrate his eldest daughter's birthday Mrs. Reiter.

The picture show next Mon. The Awful Truth, a good comedy.

## Top Price Secured For Local Bulls

A. McDougall Receives Highest Price at Sale For Animal

Champion district can be made to produce superior pure bred stock at a profit, despite all talk of this being solely a wheat growing district. Last week A. McDougall received a top price, of \$285, for his short-horn bull, the price being bid up and the animal finally knocked down to Jack Byers of the Production service provincial Department of Agriculture.

Twenty animals of the short horn breed were sold for an average of \$142.25 per head. 29 Herefords at an average price of \$138.81 per head and so on down the line. The net average was \$136 per animal at the stock sale.

Mr. McDougall is to be congratulated upon the success he has had with pure bred live stock and it shows that with careful breeding and hard work adequate returns can be secured from this branch of agriculture.

Children like cookie "sandwiches" made with two cookies put together with cake icing, fruit filling or whipped cream.

### What Are Politics

In these days before another general election, Provincial and Federal we hear a great deal about politics and parties but a large group of people continue to consider government as a game in the hands of men called politicians, rather than a representative form of administration for which they themselves are responsible.

Springing from a Greek word which meant the rights of a citizen the term politics properly means the art and practices of government. The term playing politics is an expression which is a wrong meaning, for it signifies unscrupulous methods, making a game of government for personal ends instead of an institution for the good government. Politicians are not crooks and on the contrary the government which is corrupt is the rare exception and will not be tolerated by the electors. This is even more true of the individual member of the government who conducts his office for his own ends.

Good representation is the point of great moment in our democratic government, both provincially and Federally, those men whose lives will stand the light of day and who are actuated by unselfish motives. Indeed it is a sacred task or obligation and the public must come to realize this.

Your Government will not do any act contrary to the will of the majority of members so elected and in turn the member will not go contrary to the wishes of his constituency except in rare cases where he must rely on other facts entering into the vote.

Thus we say do not regard politics as something evil, but rather a civic obligation in which it is your duty to select a representative who will truly represent not only your particular desires but carry out a policy best suited to the country's needs.

### Famous Doctor Passes

Space last week did not permit us mentioning the death of Dr. Charles H. Mayo, famous surgeon who teamed with his brother in developing the international known clinic in Rochester.

Unquestionable Dr. Mayo was a great surgeon but part of his success was not due to his skill on the operating table but his method of conducting the clinic. He secured some of the most learned in the various phases of medical science to associate themselves with his clinic and it was due to the unfailing diagnosis and treatment which brought success.

His life work was a perfect example of what can be accomplished when all work with the common object of success. The doctor has passed on but his work will remain.

### The Service of the Press

Informing the Canadian public and the world of the daily happenings of the King and Queen has been a task of great importance and the press and the radio commission are to be congratulated upon their achievement.

Never before has the press of Canada been served with such a complete word and picture coverage. Much credit is due Mr. Thompson, who was the chief officer appointed by the government to take charge of the press.

We trust that due recognition will be given Mr. Thompson and the daily press of Canada for their part in the book to be written of the Royal tour by the Canadian Government.

### STANDARDS OF EDUCATION

This week for the item Educational Standards we give a summary of the speech from the throne in which the matters of Education are stressed.

In the field of Education, it is worthy to note the advances made in reorganizing the administrative machinery for Rural Education.

Larger School Units covering 90 percent of the Province now number forty-four. Where they have been in operation for some time they are proving very satisfactory, and their record is most gratifying. It is anticipated that in a few years, financial arrangements, adequate housing and a comprehensive plan of high school education with a reasonably varied program will have been provided in all parts of the Province.

In the High School Curricula all subjects appear in a common program and selections are made in accordance with inclinations and aptitudes of the students, supplemented by such guidance as parents and teachers can give.

At an early date my Ministers hope to give attention to the provision of adequate educational equipment, and the P.T.A. technique for using the Cinema. My Government seeks to complete the task of reorganizing Rural Education and the administration of the curriculum to work out some plan whereby no child of ability will be prevented from developing his powers to capacity because of lack of opportunity.

Projects for Youth Training under the Dominion-Provincial Scheme have been set up and have done much to combat the evil of idleness.

and fit for vocational occupation. The co-operation of business and industry has been excellent and my Government expresses its appreciation for the valuable service rendered the 6,000 young people engaged in these projects. My Government feels its responsibility is not fully discharged when it brings the boy or girl to the point where the school has no further contribution to make. It feels that time and money can well be spent to direct youth along lines where their abilities can be employed, so as to give the maximum results in the way of satisfaction to themselves, and service to society. ## This is Life Insurance

IN THOUSANDS OF Canadian homes, life insurance money pays the bills—helps to support widows and children—and provides for old age.

Life insurance dollars buy the food for three square meals a day. They buy clothing and other necessities of life. They pay the rent and fuel bills to ensure warm, comfortable homes. They give children an education and a mother's care.

Each year, life insurance policy-owners and their beneficiaries in Canada receive 150 million dollars—five hundred thousand dollars every working day—twenty thousand dollars every hour.

And it is significant that more than 75% of all life insurance payments are made to living policyholders.
